

**Mental Health Reform**  
Promoting Improved Mental Health Services

Dear **Taoiseach** and **Ministers for Finance, Health, and Primary and Social Care,**

Alongside housing, employment and social welfare supports, mental health services and supports help people to recover from mental distress and live a full life in the community. Crisis supports are a part of that.

We ask you to allocate an additional €50 million, as promised, for the continued development of community-based mental health services in 2015, and especially for:

- **24/7 crisis intervention services** in every area of the country
- **Suicide Crisis Assessment Nurses** in primary care and **mental health liaison nurses** in A&E
- **Counselling in Primary Care** to be made available to more people who need it

**Please fund these vital supports in Budget 2015.**
