Challenges

- Awareness / Connecting
- Bringing the service to the technology shy!
- To Skype or to not Skype...
- Technology limitations for crisis service

Is it working?

800+ appointments
15 different countries
across multiple time zones...

Testimonial

“I was going through a very difficult time in my life. Things were falling apart for me and I needed help. Through the hard work and dedication of this team I managed to get myself back together again. I met an amazing person who didn’t judge me but instead offered a listen ear and very good advice.

I felt these people genuinely wanted to help me and cared a great deal about my life. I will be forever in their debt as they were that helping hand which I so badly needed. Things don’t always work out as planned but for now the future seems that bit brighter”
